

Extra C 550mg

Extra C is a high potency, highly effective and absorbable form of vitamin C.

Vitamin C is an essential nutrient for the body. It is crucial for the normal function of the immune system and is required for the normal operation of many structures in the body including, bones, teeth and gums. It also supports skin by contributing to normal collagen formation and contributes to the protection of cells from oxidative stress. In addition, vitamin C helps maintain normal energy levels and psychological function.

In this clinically researched formulation, the addition of lipid metabolites enhances the bioavailability of vitamin C, meaning that it can be more rapidly absorbed - and subsequently retained - by the human body than other traditional forms. The result is an increase in the distribution of vitamin C to the cells helping to deliver optimal levels.

Contains 100% active ingredients, formulated by expert nutritionists with no artificial fillers and no nasties. Sourced according to Viridian's strict ethical criteria including no animal testing, GMO or palm oil.

Key Features:

- High potency form of vitamin C
- Delivers enhanced absorption
- Contributes to the normal functioning of skin, teeth and bones
- Supported by human clinical research
